

GAZİANTEP YOUTH UNION ASSOCIATION
SAME HOUSE AND DIFFERENT ROOMS
ACTION 3.1b TRAINING COURSE
13-20 JUNE 2010
BAKU / AZERBAIJAN

Training course Info:

The fact of globalization throughout the world is well known to us as one of the key efforts of states in bringing together all the available and even challenging in production and usage resources of our planet and their effective allocation, conservation and rational utilization. While states at the level of governments are baffled and concerned with integration in such life spheres as economy, war industry and energy policy and exert themselves in implementation of such kind of integration by means of collaboration within the range of political alliances, international organizations, and transnational companies and emergence of global market, such aspects as human relationship, human factors in common are regarded as secondary and are treated with neglect and even often are not taken into account. People should endeavour to improve their collaboration in building and keeping functioning a

single and common system of cultural, historical, religious, moral and all other human values. We are persuaded that it is precisely this fact that explains a gap between nations, namely among youth, and engenders contradictions, lack of mutual understanding and shortage of tolerance, which we are aiming to overcome in our project.

Objectives:

1. Amelioration of collaboration system among youth. We are living in the same “house” , that is to say, the great cooperation process should take place
 2. cultural exchange which has an aim to reveal not only the features that separate us(people) but also the ones that illustrate our similarity despite of the great diversity, postulated by the very essence of each nation. We have to coexist in the form of one whole spirit
 3. to bring to people's mind the fact of possibility and variety of advantages of cohabitation, teamwork and mutual understanding that could be reached by living in the same house though in different rooms. We are housemates.
 4. to overcome psychological barriers that were engendered by prejudices and biased perception of foreign and by the consequence different cultures. In spite of all we are human beings.
 5. to bring together as much as possible nations and make efforts in building the basis for further cooperation between the nations, especially for youth cooperation by stimulating them in sharing with ideas, experiences and etc.
- Our main objective is to sustain and help each other

PARTICIPANTS
